PROJECT

Tshirt_Hvn [↗](#)

- Built an e-commerce website with product browsing, order placement, and reviews.
- Developed an admin dashboard for product and order management.
- Created RESTful APIs using Node.js, Express.js, and MongoDB.
- Used React.js, Bootstrap, and Redux for responsive design and state management.
- Optimized database performance with Mongoose.

Tomato [↗](#)

- Developed an online food ordering and delivery platform.
- Enabled users to browse menus, place orders, and track deliveries.
- Used React.js for the frontend and Context API for state management.
- Built the backend with Node.js and MongoDB for data management.
- Ensured a seamless user experience with responsive design.

TaskMate [↗](#)

- Developed a task management app for creating, updating, and deleting tasks.
- Added features like customizable background themes and responsive design.
- Used React.js for the frontend to ensure smooth user interactions.
